

British Columbia EMERGENCY ALERT

EMERGENCY RESPONSE ACROSS BC

- The flooding/road closures may cause disruptions to the illicit drug supply across BC, which can increase toxicity and risk of overdose
- There is no shortage of naloxone in BC and we are working to ensure distribution to sites across the province

FOR YOUR SAFETY:

- 1) Use an Overdose Prevention Site, if you can. [FIND AN OPS](#)
- 2) Pick up a naloxone kit and harm reduction supplies near you. Some distribution sites may be affected by delivery disruptions so when possible, check in with the site first [FIND A SITE](#)
- 3) Get your drugs checked [FIND A LOCATION](#)
- 4) Avoid using alone. Find a buddy or have someone check on you.
- 5) When using with a buddy is not possible, consider using an app like [Brave](#) or Lifeguard or virtual spotting. [How to spot someone by video or phone from CAPUD.](#)
- 6) Talk to your doctor or nurse practitioner about how to access prescription medications to reduce overdose risk and prevent withdrawal. Refer them to these [guidelines](#) or [Click here](#) for more info.

THIS IS A PROVINCIAL ALERT

Check your local Health Authority websites for local alerts
